

Supporting Microsoft SharePoint

A 2 day **Hands on** training course

Description

A concise hands on course enabling delegates to manage and administer a SharePoint site.

Key outcomes

By the end of the course delegates will be able to:

- ✓ Perform initial farm configuration.
- ✓ Use stsadm commands.
- ✓ Manage content.
- ✓ Secure SharePoint.
- ✓ Customise SharePoint search.
- ✓ Monitor and performance tune SharePoint.

Training Approach

This structured course uses Instructor Led Training to provide the best possible learning experience. Small class sizes ensure students benefit from our engaging and interactive style of teaching with delegates encouraged to ask questions throughout the course. Quizzes follow each major section allowing checking of learning. Hands on sessions are used throughout to allow delegates to consolidate their new skills.

Details

Who will benefit?

SharePoint Administrators.

Prerequisites

Supporting Windows server.

Duration: 2 days

Overall rating:

Generic Training

Generic training compliments product specific courses covering the complete picture of all relevant devices including the protocols "on the wire".

"Friendly environment with expert teaching that teaches the why before the how."
G.C. Fasthosts

Small Class Sizes

We limit our maximum class size to 8 delegates; often we have less than this. This ensures optimal interactivity between delegates and instructor.

"Excellent course. The small class size was a great benefit..."
M.B. IBM

Hands On Training

The majority of our courses use hands on sessions to reinforce the theory.

"Not many courses have practice added to it. Normally just the theoretical stuff is covered."
J.W. Vodafone

Our Courseware

We write our own courses; courseware does not just consist of slides and our slides are diagrams not bullet point text.

"Comprehensive materials that made the course easy to follow and will be used as a reference point."
V.B. Rockwell Collins

Customise Your Course

Please contact us if you would like a course to be customised to meet your specific requirements. Have the course your way.

"I was very impressed by the combination of practical and theory. Very informative. Friendly approachable environment, lots of hands on."
S.R. Qinetiq

Supporting Microsoft SharePoint

Course Content

SharePoint Introduction

A SharePoint installation.
Initial farm configuration.
Creating a site collection.

Administering SharePoint

Stsadm commands,
automation with PowerShell.

Lists,
libraries,
items and
documents.

Security

SecureStore,
Users and groups,
roles and role assignments. Permission levels.

SharePoint search

Configure search,
refine search.

SharePoint performance

Diagnostic logging,
logging levels,
Health analyzer,
performance bottlenecks.

What our customers say

"Absolutely brilliant, very knowledgeable and helpful trainer would recommend to teach anyone. Kept me interested 100% of the time which is very impressive as this does not happen often, if at all!"

O. B. Network Rail

"The best technical course I've been on!"

L. W. Fujitsu Telecoms Europe

"Very well thought out and structured course. Would recommend 100%. Lots of equipment, good quality."

A.R. Unipart

"Course content is interesting. Relevant to current systems and presented well."

S.S-T. Arqiva
